

Welcome to the Great Wizard's Exclusives Page. The artwork created by Fighting Fantasy artists has always been spectacular, and so are Wizard Books' new range of covers. These have no doubt inspired many of you to create your own images depicting your favourite monsters, characters and scenes from the series. Here we present our exclusive look at unseen artwork and sketches, as well as short interviews we've had with the cover artists themselves.

Beneath Nightmare Castle - original unseen artwork By Dave Carson

During a recent conversation with Dave Carson he revealed that his favourite FF illustration was sadly banned from his only FF book Beneath Nightmare Castle. With great delight I am proud to present this exclusive picture featuring a woman with tentacles coming out of her mouth. Puffin dropped a couple of drawings from the book and this was his favourite one.
